

PROJECT DATA SHEET

# YOLLA MLE PROJECT

BASS STRAIT, SE AUSTRALIA

## PROJECT OVERVIEW

- **Location** Bass Strait, SE Australia
- **Contract period** Mobilisation will occur 4Q 2011 for a period of 150 days
- **Value** 29.1 M USD
- **Vessel** *Jascon 25 or Jascon 34*
- **Description** Accommodation / Heavy Lift services

Sea Trucks has been awarded a 150 day Accommodation / Heavy Lift services contract to support the Yolla Offshore Mid Life Enhancement project located in Bass Strait off the SE coast of Victoria, Australia. Currently the client has further 3 x 20 day options to extend the charter.

The Jascon 25 or 34 will mobilise from Singapore and transit down to Bass Strait where it will provide accommodation, lifting, catering and construction support services to the Yolla platform operated by Origin Energy.

The vessel will connect to the Yolla platform via its hydraulic telescopic gangway and will remain on DP throughout the term of the contract. Through-out the project term, the Jascon 25/34 will execute various lifts including two 500 t lifts and various other minor lifts utilising its active heave compensated 800 t crane.
